

Anatolia

Built in 2001 by Turquoise Yacht Construction in Turkey, Anatolia boats a beautiful Edwardian Redman Whiteley interior with exterior design by Tanju Kalaycioglu. Anatolia combines the grace and space of the 1920s with state-of-the art modern technology of the twenty-first century. Guests onboard Anatolia can be assured of a first class service in an environment of unrivalled luxury. An Edwardian theme is followed throughout with the use of a fine selection of lose furniture set against a background of traditional oval headed windows and Brazilian mahogany panelling.

After an extensive refit for her current owner, she now cruises under the name Vajoliroja
