

Serenity II

The Serenity II is a truly one of a kind, a superyacht made unique by its extraordinary standards of luxury and excellence.

Built in Turkey by the Mengi Yay Shipyard, with exterior design by Endaze Mühendislik, and interior by H2 Yacht Design, this vivacious displacement superyacht has a powerful presence.

The Serenity II was a design born from a team who worked to define and design the dream yacht. Her design stage was an unforgettable experience in which imagination and desire was placed into the hands of creative experts who went on to revise their sketches over and over again until they arrived at a design that reflected a height of excellence in both craftsmanship and layout.
